

THE COUNCIL.

A SESSION DEVOTED STRICTLY TO BUSINESS.

The First-street Paving Imbroglio Reported by Superintendent Baldwin—The Council in a Slough of Despond in Street Improvement Matters.

The Council met yesterday morning, all the members being present, except Messrs. Barrett, Boswell, Lovell and Sinsabaugh, who are on the sewer investigating committee now in the East.

The minutes of the last meeting were read and approved.

A MESSAGE FROM THE MAYOR was read, recommending that the Superintendent of Streets be instructed to build, at a cost not exceeding \$300, a temporary walk on the north side of the temporary bridge now being built at Downey avenue by the cable company. Also that the inclines not in use at Downey avenue be placed in the river at the north side of First street during the construction of the viaduct. Mr. Cohn stated that the Board of Public Works had already taken action in the matter, and the recommendation was filed.

A petition by the property-owners for leave to pave Los Angeles street from First to Commercial with granite blocks was granted, on condition that the entire two blocks be so paved.

A petition of Gov. Downey for leave to repave the street before his property on Main street was granted. Mr. Cohn said that the contractor had been derelict in the matter, that the pavement was not good, and that Gen. Downey had not yet paid in his assessments. The petition was granted.

WHO SHALL PAY FIRST STREET? The Superintendent of Streets filed a communication stating his position as to the paving of First street. The contractor, Scheerer, did not furnish a proper bond, and one Austin presented a contract from the majority of the property-owners on the street, backed by their powers of attorney. The City Attorney thought the power of attorney insufficient, and as the whole business is now in the courts, before Judge O'Melveny, the communication was filed.

A number of communications from the City Attorney were received and referred. Among them was one expressing the opinion that the

STORM-WATER DRAIN along Beaudry street could not be built at the expense of the owners of that street, as it drained a much larger area. Referred to the City Engineer, to see what territory it did drain.

The report of the City Auditor for the past week and also the trial balance for the month of September were received and referred.

The report of the City Surveyor was read and several recommendations were filed. Among them was a petition that the name of Lake Shore avenue, from Figueroa to Diamond street, be changed to Second street.

The Finance Committee reported on a number of bills. Also, that the TURF AND GRAIN EXCHANGE was licensed for three months at \$300 per month. Their license was given up at the expiration of the month, and the Finance Committee recommended that the \$300 for the last month be returned to them. The Council voted for the recommendation of the committee by an unanimous vote.

The Finance Committee also recommended that the Superintendent of Streets sign no more contracts for grading streets until the property-holders petitioning for improvements file a

WAIVER OF ALL CLAIM against the city for any part of their assessments.

Mr. Cohn opposed it and said that under such a method no improvements would ever be made.

Mr. Hanley moved to refer to the Board of Public Works.

Mr. Chandler opposed taking any more power from the hands of the Street Superintendent. If we do, why not abolish the office?

City Attorney Daly said that the right way to do was to let the Superintendent begin in the hands of the Superintendent of Streets, and let him have a man to look up the assessments, etc., when the work was first proposed. After the Council had passed it there was nothing to do but sign the contract.

Mr. Chandler moved that the superintendent be allowed to collect data regarding street work, and report to the Council before contracts are awarded.

Superintendent of Streets, in the absence of the additional fund would be paid out of the contingent fund on the property assessed.

Mr. Chandler's motion was carried.

NO MORE CLAIMS ON THE CITY. The motion to adopt the recommendation of the committee, that the Superintendent of Streets must first obtain a waiver of claim against the city from parties to be assessed for street improvements was then debated.

Mr. Book moved to lay the matter on the table.

Mr. Cohn objected to such language.

The motion to lay on the table was lost, and the recommendation of the committee adopted by the following vote: Ayes: Cohn, Collins, Gibbs, Hiller, Matthews and Teed and Humphreys—7. Nays: Book, Chandler, Hiller and Matthews—4.

Mr. Chandler then moved that the additional clerk allowed the Street Superintendent to look up the assessments proposed on new work be paid by the city. The motion was carried. Mr. Cohn alone voting in the negative.

THE CITY ATTORNEY reported that the Council had bought 10 feet from Newmark & Co. at the corner of Los Angeles and Saineval streets for \$1575, while the warrant had only been drawn for \$1500. He asked for the other \$75.

Mr. Cohn said that only 8.9 feet were needed to straighten the street, and Newmark had better keep the other foot as an offset to the \$75.

The Council decided to pay the money, and then took a recess till 1:30 p.m.

Afternoon Session. Mayor Workman took the chair at about 1:45 p.m., and the board convened as Board of Regents of the Los Angeles Public Library. Miss Jessie A. Gavit, the secretary and librarian, read the minutes of the last monthly meeting, which were approved.

She then read her report, from which it appears that in September the library was open 26 days and 1705 books were loaned. The receipts were \$160.75 and the disbursements \$153.20, leaving a balance of \$23.55.

aid of the city authorities. He asked that the public watering troughs be removed, and that the city appoint officers to act in conjunction with those acting for the county. He desired a committee of the Council to confer with the supervisors about the matter, or they would act on the Committee on Public Health.

Mr. Gibbs moved to refer to the Board of Public Health.

Mr. Book objected; he wanted action taken. The watering troughs in the city are spreading the contamination every day. Supervisor May thought the Board of Health should appoint a man to act in conjunction with the County Veterinary Surgeon in this city.

Mr. Gibbs moved to refer to the Board of Health with power to act with the county authorities.

Mr. Chandler moved to amend by instructing the Superintendent of Streets to REMOVE EVERY WATERING TROUGH in the city.

Mr. Cohn protested that the horses would be choked throughout the city if the troughs were removed, but Mr. Collins said the drivers could carry pails for the horses; and both motions were carried.

In answer to a question of Mr. Cohn, Mr. Rowan stated that the county paid expense of creating the road funds, etc., and that the city was going all the time. The county had been to more expense inside the city than out. He thought the city should pay for their own officers, whom they might appoint. The committee then withdrew.

Mr. Teed moved that the Street Superintendent be instructed to finish up Sand Street in 30 days. Carried.

The report of the Committee on Zanjias was read and approved.

SHALL THE LAND BE LEASED? The Committee on Land presented a petition from parties to lease land on the East Side. The matter was filed.

Subsequently, Mr. Hanley called it up again, and advocated leasing lands of the city rather than to have them squatted upon without a lease.

Mr. Cohn moved that the Land Committee be authorized to lease city lands. Mr. Collins opposed the motion, and the matter was postponed.

A resolution was presented by Clerk Teed, calling for an election on October 20th, which falls on Saturday, to vote on the adoption of the new charter. The resolution left blanks for the polling places and judges of election.

Mr. Gibbs moved that each ward be divided into two precincts for convenience of the voters. Mr. Cohn opposed on the ground of additional expense. Mr. Teed said this proposition was just a blow at the new charter. Mr. Humphreys said that he would pay the extra expense out of his own pocket. The Council took up Mr. Humphreys, and carried the motion.

A communication was read from Jerry H. Butler on behalf of the trade unions and Knights of Labor, asking for the appointment of the following inspectors in the different wards: First, H. M. Jones; Second, V. H. Dodge; Third, W. A. Cole; Fourth, A. H. Rudoff; Fifth, W. L. Wolfe.

The wards were then DIVIDED INTO PRECINCTS and officers and polling places appointed, as follows:

First Ward, precinct A, east of Los Angeles River; polling place, wigwam, corner Downey avenue and Daly street. Inspector, Henry W. Jones; judges, W. C. Hughes and Charles W. Wood.

Precinct B, west of Los Angeles River; polling place, Southern Hotel. Inspector, Hugh Heaney; judges, C. B. Woodhead and C. M. Barker.

Second Ward, precinct A, east of Alameda street; polling place, Lankershim's mill. Inspector, W. H. Dodge; judges, D. Campbell and William Todd.

Precinct B, west of Alameda street; polling place, courthouse. Inspector, T. J. McGee; judges, A. S. Mapps and Walter McGrath.

Third Ward, precinct A, east of Flower street; polling place, northwest corner Second and Fort streets. Inspector, M. H. Shepard; judges, M. Morris and George Gephart.

Precinct B, west of Flower street; polling place, northwest corner of First and Sixth streets. Inspector, W. A. Cole; judges, J. C. Walker and W. H. Bonsall.

Fourth Ward, precinct A, east of Main street; polling place, Bell's real-estate office at Boyle avenue and First street. Inspector, A. H. Rudoff; judges, J. W. Drown and Charles J. Hill.

Precinct B, west of river; polling place at Lorenzo Leck's, next to Hammann Baths, on Main street. Inspector, P. M. Scott; judges, H. D. Barrows and J. J. Woodworth.

The Fifth Ward was not divided; polling place, corner of Main and Broadway streets. Inspector, W. L. Wolfe; judges, Charles Purcell and J. Frankendorf.

The report of the Health Officer was referred to the Board of Public Works.

BOARD OF PUBLIC WORKS was read and its sections all approved. Among them was one directing the City Surveyor to make an estimate for grading First street between Fort and Grand avenues.

Also that Los Angeles between First and Commercial streets be paved with granite blocks. Carried.

The early-closing ordinance for saloons was read, to take effect November 1st. It was to close them from midnight till 3 p.m. It was lost by the following vote: Ayes: Book, Chandler, Hiller, Matthews and Humphreys—5. Nays: Cohn, Collins, Gibbs, Hanley and Mortary—3.

THE REPORT OF THE BOARD OF COMMISSIONERS was read, recommending that be purchased W. S. Maxwell's sorrel horse for \$275, F. C. Kurlley's sorrel for \$300 and James Campbell's gray for \$350. The report was adopted.

The bond of the Black Diamond Coal Company was fixed at \$500.

The Sewer Committee reported as to the Fort and Grand avenues, and recommended a 10-inch pipe from Temple to First street, and a 12-inch pipe from First to Fourth street. It was ordered that resolution of intention be adopted.

Resolutions to establish grades of various streets were referred to the Board of Public Works.

A petition was received from A. Jacoby, J. Murietta, L. Thome, O. Sillerberg and H. M. Russell for an extension of the east levee 300 ft. by the city, to pay \$5 per foot, and the petitioners the balance. Referred.

The Committee on Gas recommended placing a three-light electric main, 150 feet high, at the corner of Brooklyn avenue and Pacific streets, on Boyle Heights. It was so ordered.

Resolutions were passed to GRADE AND PAVE the following streets:

Third street, Main to Hill, bituminous rock.

NOBLE FISHERS.

STORIES CURRENT ABOUT TWO WELL-KNOWN NEIGHBORS.

How Harry Hazard Caught Trout in a Cold Country—Escaped with a Jew Fish in the Quiet Waters of Catalina.

Two of the oldest inhabitants of Los Angeles are the Hon. Harry T. Hazard and Jesse Yarnell. Harry is an inventor, a lawyer and an ex-State Senator. He is enterprising from the ground up and knows everybody in the county, from the highest to the lowest, and is considered one of the most useful men in 17 States when it comes to getting up a Fourth-of-July celebration.

He is also a great hunter, and for 20 years or more he has hunted wild beasts of all descriptions in every out-of-the-way corner of Los Angeles county and several other counties.

Like all hunters of note, Harry is good natured, and the boys do not consider a hunting party complete unless he is one of them. One of his numerous good traits is that he never forgets his friends who have to remain at home, and he was never known to return to the city without game, even if he had to go down in his pocket and trade with some hunter who was more lucky than himself.

Harry is also a good fisherman, and some of his evolutions in the water have even gone so far as to say that he is the man about whom the story is told. "I say that many long years ago, before Harry moved from his old eastern home to Los Angeles, he went out to a trout stream that has frozen over, but Harry did not give up a little thing like that, so he cut a hole in the ice and dropped his hook down.

In less than a second he was pulling a big trout out. In dropping his hook the second time, he noticed that there were hundreds of trout playing about the hole, and they were so hungry that they jumped out of the water to get the bait. After pulling out over a dozen, a happy accident struck him, so he held the bait about a foot above the hole with his left hand, and as the fish jumped up he gracefully slipped them to one by one, until he had had slapped out a careful fish. It is not known whether Harry is the real man or not, but many of his friends firmly believe that he is.

Jesse Yarnell is a temperance man of more than local fame. He took up this calling some years ago, and has done much good work in Los Angeles. He is not much of a sportsman, but he and Harry are great friends, and it is said that they have been known to go fishing together more than once.

The story as told on them by the boys is a good one, and goes something like this: Several weeks ago Harry and Jesse made up their minds to sail over to Santa Catalina and have some sport fishing for Jew fish, as they had heard that the species of the innu tribe were plentiful in the quiet lee-shore waters.

They reached the island all right, and after equipping themselves with bait and several hundred feet of line, and numerous hooks, they hired a boat and started out. The sun was just coming up, and the water was all Nature seemed to be in a sportive humor.

The sportsmen never felt better. In their lives, and as Harry bent gracefully to his oars Jesse told numerous stories. He seemed to forget all about prohibition, and did not object when Harry dropped the paddles after reaching the lee shore, and they lay on the beach, and caressed a black bottle that all good fishermen carry.

The hooks were sunk and the small boat was allowed to drift as it pleased. It had not drifted more than 10 minutes when Harry felt a big snag on his line.

"I've got one," he yelled in at the top of his voice, and Jesse, who was at the other end of the boat, made his way to his assistance as rapidly as possible.

"Let me help you, Harry," whispered Jesse in an excited manner in Harry's left ear.

"You stand back. I know all about these Jew fish and you don't so keep out of the way while I yank him in," howled Harry, and at the same moment he gave a yank on the line.

And struck Jesse a terrible blow in the head, which sent him flying into the water. Harry was greatly excited by this time, and did not notice that Jesse was floating about in the briny deep; in fact, he was having more trouble than he bargained for himself. The Jew weighed over 300 pounds, and he had a strong grip, and the fish was getting away with him. But he is not the kind of a fellow to give up, so he made up his mind to try to get the fish in the attempt. The fish seemed to be having lots of fun circling around and Harry saw, or thought he saw, a good chance to make one for himself.

He held on with his left hand while he tied the line with his right hand, and had just completed the work when the fish took a bee-line for the beach, and Harry was leaning out in anything but a secure position, over his head, and was splashing around in the water.

Up to this time he had not noticed that his companion was being battered, although poor Jesse had been howling at the top of his lungs.

Before the fish got under good headway both of the men got hold of the boat, and it was lucky that they did, for they were no more than made fast when the boat began to plow the water at a frightful rate.

The two succeeded in climbing in after a while, and Harry was only too glad to get a little assistance from Jesse.

After rushing around during the greater part of an hour the fish gave up, and was landed in the boat.

The fishermen were completely used up by this time, and it took them only a few seconds to come to an understanding to the effect that they had had enough sport for one day.

Both of them swore to keep the matter a secret, but it finally leaked out, and the boys have almost teased the life out of them; in fact, any one can get a fight by simply asking either what he is going on another Jew fish expedition.

SPANISH-AMERICANS.

A Vigorous Republican Club Organized.

A new club was organized, Sunday, at No. 8 Upper Main street. About one hundred enthusiastic Spanish-American Republicans were present to signify their interest in the great political question. Tomorrow evening there will be another meeting at the same place, when it is expected that all Spanish Republicans in the city will be there and sign the roll.

The election of officers resulted as follows: President, J. B. Sanchez. First vice-president, F. E. Lopez. Second vice-president, Sorthen Sepulveda.

Recording secretary, M. F. Johnson. Treasurer, J. D. Guerrero. Marshal, S. Arguello.

The president made a few stirring remarks, setting forth the object of the organization, and the meeting adjourned with three cheers for Harrison and Morton and the country ticket.

The Campaign at Newark.

A rousing Republican meeting was held in Newark last night. Col. John Brooker presided, and in opening the meeting he made a telling speech in favor of Martin A. Gilmer. Frank P. Kelley was then introduced, and talked over an hour. J. P. Way closed the meeting in a 30-minute speech. During the evening a pleasant party was treated to several selections by a quartette. The meeting passed off very nicely, and the audience seemed to be well pleased with the speakers.

The Absent Officials.

Mayor Workman yesterday received the following telegram from Capt. A. W. Barrett, which explains itself.

PHILADELPHIA, Oct. 8, 1888. W. H. Workman, Mayor, Los Angeles: Have just inspected the sewer system at Atlantic City. It is all that has been represented. E. F. Spence is with us, and is delighted. A. W. BARRETT.

"CLARA."

She Finds Some Friends to Bail Her Out.

The girl Clara, who was arrested in front of the St. Elmo Hotel, Sunday evening, by Deputy Sheriff Sanchez, for using vulgar and obscene language, spent the night in jail, but yesterday she was out on the streets as gay and lively as ever.

Yesterday morning John L. McCoy, the Democratic nominee for Coroner, called at the Sheriff's office and inquired for the officer who arrested Clara. Mr. Sanchez promptly acknowledged the responsibility for the act, when Mr. McCoy told him that he was the father of the girl.

Mr. Sanchez told him that he could not do, and that Mr. McCoy would have to see a justice of the peace. Mr. McCoy then went to St. Louis, where he had a friend, Justice Taney, when the girl's bail was fixed at \$7, and she was ordered released, thus virtually settling the case, as the bail was forfeited and she will never be brought to trial, at least, on this charge.

Yesterday morning Mr. Burns, the proprietor of the famous lodging-house called at the Sheriff's office to deny that Clara had a room in his house. Later in the day it was stated as a fact that she had been in his house, and occupying room No. 10, and a reporter called on Mr. Burns to be certain that no mistake had occurred. Mr. Burns was positive that no such party had ever been in his house, and he had learned since his visit in the morning that two women were driven up to his place about 11 o'clock Friday night in a hack, and went up the stairs. His clerk, he says, followed them up and asked their business, but they did not make any reply, and went to their room in a few minutes. He is positive that they never stopped a single night under his roof.

Mr. McCoy, who is evidently afraid that the facts in the Clara case will be made public, sends the following card to THE TIMES, from which the public can draw its own conclusions:

To the Editor of THE TIMES: There appears in the Express of this date an article in which my name and that of Mr. Sidney Lacey are used without any warrant of fact. The statements contained in the Express are utterly false in their bearing and import, and I am compelled to issue this statement to the public to clear up the matter.

At the time of the Clara case, I was in the city, and I was not present at the hearing of the case. I was not present at the hearing of the case, and I was not present at the hearing of the case.

FIXED IT UP.

A SCANDAL WHICH AGITATED EAST DEPOT STREET.

A Railroadman, Finding His Home Dishonored, Quietly Packs His "Grip" and Seeks Other Fields. The Curious Contract He Left Behind.

The habits of the quarter about the Southern Pacific depot, and on East Depot and Ann streets, for several weeks have been whispering a scandal in which two railroad men and the wife of one of them are the actors. The matter has been kept semi-secret, and very few outside the railroad people and the friends of the parties directly interested have known anything of the affair, which, if the current rumors are true, involves the reputation of all the parties. A news reporter was given an inkling of the story, and yesterday started out to investigate them.

"The men were both in the employ of the Southern Pacific Railroad Company when the affair occurred, and both had charge of freight trains as conductors. One of them, named Edward Howd, resided with his wife and a little boy of 4 years on East Depot street in a tasty cottage. He and his wife had been married for six years, and they had succeeded in getting a home comfortably furnished, a portion of which was leased to lodgers. The trouble on the domestic waters is not coming from this source, but from a single man named George Wandling, who from No. 111 Ann street, a couple of blocks southeast of the Howd household, was making his wife's trips at different times. Wandling is a short man, of about 27 years of age, with a black mustache and is rather good-looking. He has been living on Ann street for a couple of years, and is well known in that quarter of the city. It is not known how he became acquainted with the Howd household, but it was probably through his being a brother freight conductor.

Several weeks ago, rumor has it, Howd was sent out with a train, but he did not take it as far as usual for some unexplained reason. His arrival home was undreamed of, and his wife and child were waiting for him. He was in a state of mind, it is alleged, were occupying the same piece of furniture in unseemly dalliance. The outraged husband, from all accounts, was the roughest of the trio, when he saw that his place had been usurped by his brother conductor. The guilty couple, seeing they were discovered, tried to put a good face on the matter, and, it is alleged, asked her husband what he was going to do. He replied that he was packing up and was going to leave. She then inquired if he was going to leave the boy behind, to which, it is said, he replied: "How do I know whether he is my son or not?"

In justice to the woman, it must be said that she denies that such a conversation occurred. The injured husband, then, cleared out, leaving his wife and the boy and Wandling in possession.

For a week the aggrieved man hung about the city, telling his acquaintances about the affair. During this time he determined to leave the

POKER DAVIS & CO.

THE BUNCO SHARPS WITHOUT A PROSECUTING WITNESS.

The Mulcted German Fails to Appear in Court and the Infernal "Very Plain That He Has Been Squared"—The Old, Old Game.

The cases of E. C. (Poker) Davis and his confederate, A. Baker, for obtaining money under false pretenses, were called in Justice Taney's court yesterday afternoon. The parties are confidence operators, the principal, Poker Davis, being one of the best workers of his class on the coast, who has figured in perhaps more "turns" than any one else in the city, and so far managed by some hook or crook, to keep on the outside of the jail. A week or two ago the pair did up a young German named Joseph Schley for \$15. The man kicked, and Davis and Baker were arrested and locked up in the City Prison, bail being refused by the officers for their release. Schley was also locked up as a witness. The case was called on for a short time, when John Buster, one of the gang, went after Justice Taney, and brought him to his office, where the attorney for the two men, George M. Holton, was waiting for them. Buster then swore to a complaint against them, which was drawn up by their attorney, on which a warrant was issued against them, and they were taken out of the City Prison and released on bail. Schley was kept in prison for several days, when he was released, as there was no charge pending against him. Davis and Baker appeared before Justice Taney in due form, and their trial was held yesterday afternoon at 3 o'clock. Promptly at that hour, in fact some time before, Davis and Baker, accompanied by their attorney, Mr. Holton, appeared in court. Davis was in his usual good humor, and freely joked with the court officers and officers present, but Baker had but little to say. Sergeant Davis and Officer Bosqui of the police force were also present as witnesses. A few minutes after 3 o'clock, Judge Harrison, representing the State, and Justice Taney entered the room, when Mr. Holton announced that he was ready to proceed. Judge Harrison said that the prosecuting witness, Schley, was not in the courtroom, and that he was unable to proceed at this time. Mr. Holton had drawn up the complaint and had left off the names of the witnesses, so that the officers had been unable to find them, and he would ask to have the case continued until such time as would give the officers a few days more to search for them. Mr. Holton strongly objected to any further continuance, saying that if Schley had wanted to appear against the men he would have been there yesterday afternoon at 3 o'clock, and he would go on at once, his anxiety perceptibly increasing when he knew for certain that the main witness was missing. Justice Taney, however, could not see it this light. He said that there had been so many cases of this character before him and nothing had ever come of them, that he was determined to give the officers every chance, and he therefore continued the cases until next Wednesday afternoon at 3 o'clock, instructing the officers to use due diligence in searching for the missing witness, Schley, and ordering all the witnesses in the case to appear without further notice.

Of course when the cases are again called they will be dismissed. But the prosecuting witness, who lost the money, has been "squared" and has got out of town, so that there is no evidence against the men, and they will go clear to play their vocation until some other "sucker" squeals, when the same farce will be gone through with. The police, however, say that they will keep a sharp lookout after them, and will try and reduce their power for mischief to a minimum.

THE COURTS.

The Supreme Court Opens its October Session.

The Supreme Court met at 3 p.m., with Chief Justice Niles presiding, and the following present: Justices Thornton, Paterson, McFarland and Works.

The following attorneys were admitted to practice before the court: Lewis S. Dennis, W. T. J. Rose, Samuel S. Price, Mr. Becker, C. N. Burns, C. D. Wright, Mr. Fisher, J. T. Connan, H. W. Latham, V. E. Shaw.

Gray et al. vs. Winder; W. F. G. Winder, administrator of estate of W. F. G. Winder, substituted in place of Gatewood, deceased. Palmer & Key vs. Howard; motion to dismiss argued and submitted.

Allen vs. Haley; motion for diminution of record submitted.

McLaughlin vs. Clifford; appeal dismissed without costs.

Kindler vs. Newkirk; motion to dismiss appeal submitted.

Pico vs. Cohn; cause placed at head of calendar for Saturday, October 13th, in place of Hunt vs. Elliott.

Martin vs. Milford; motion to dismiss appeal submitted.

Information filed and Wednesday set for argument in cases of John Kelly, John Connolly and Frank Morrison, charged with burglary; Woo Young and Soo Hoo Ling, charged with assault to murder.

People vs. John Billings; order set aside forfeiting bail, defendant duly arraigned, and Wednesday set to plead.

People vs. Justo Oroco, defendant duly arraigned, waives time to plead, and pleads not guilty; cause set for trial November 19th.

People vs. M. Cavanick, motion to dismiss information granted, and defendant discharged.

People vs. Mendenhall, gambling (playing keno in cellar of the New United States Hotel some months ago), on trial before jury.

JUDGE O'MELVENY'S COURT.

The following term trial jurors were selected for the current term:

J. M. Spencer, Charles K. Parris, Leonard Baker, A. Lockwood, Charles T. Bush, L. L. Fitterman, D. D. Reynolds, G. W. Aylesworth, J. H. Mosser, Andrew Jauchin, W. H. Foley, William A. Peeler, A. E. Brown, A. Becker, Joseph Hyans, D. Desmond, D. P. Smart, B. F. Monahan, John J. Charnock, Martin R. Gaddy.

NEW CASES.

Patrik Moore begins action against Mrs. M. A. Billings and L. J. Forsyth to recover \$150 for material furnished.

The Los Angeles Storage Commission and Lumber Company sues the San José Ranch Company and W. E. Lane to recover \$360 for materials furnished.

The Pacific Manufacturing Company brings action against John K. Paul, Carrie H. Paul and Nathan N. Sargent to recover on a promissory note for \$1433.71 and foreclose a mortgage.

JUSTICE TANEY'S COURT.

John O'Connor, on conviction of battery, was fined \$5, which he paid.

under false pretenses, continued to October 11th, at 3 p.m.

People vs. William Houston, disturbing the peace, fined \$4.

Smith vs. D. Vidon et al., judgment rendered for plaintiff as prayed, 10 days' stay of execution granted.

In addition to the above, there were a large number of vagrants and drunks, who were fined from \$4 to \$8 each, and were committed to jail to work out the amount.

JUSTICE KING'S COURT.

People vs. W. Ben, assault to murder. On motion of District Attorney the case was dismissed.

M. Tetian vs. Owen, continued to be reset hereafter.

People vs. T. A. Gomez, battery, set for trial at 10 a.m., October 17th.

SET FOR TODAY.

Daneri vs. Bullna, demurrer set for hearing at 9 a.m.

People vs. Lee Jim, assault to murder, examination at 10 a.m.

People vs. Butler et al, obstructing highway, trial at 2 p.m.

People vs. J. C. Hess, battery, trial at 3 p.m.

CALIFORNIA AT COLUMBUS.

Not Enough of an Exhibit to Satisfy Native Curiosity.

COLUMBUS (O.), Sept. 29, 1888.—[Correspondence of THE TIMES.]

The exhibit of Southern California has been one of the most attractive features of the Centennial Exhibition at this place.

The officers in charge of the exhibition have done everything we have asked of them to help us to show our exhibit in the best possible manner, and have done a large amount of free advertising for us, and hundreds of people have been attracted to the exposition to see our display.

The Los Angeles Board of Trade was fortunate in securing so able a man as Mr. Van Alstine to have charge of its exhibit, for he has done remarkably well with the material he has had placed at his disposal, and the only failure we have made has been in a lack of fruits and reading matter to keep up our display longer.

The fruits and vegetables seemed to decay very rapidly, and our supply was so small that we soon began to have vacant places on every shelf and our literature and advertisements soon gave out and we had nothing left to show, and yet the people continued to pass in at one door and out at another, and we had nothing but a few canned goods, a part of a bale of alfalfa and a few dried palm leaves to show.

Hundreds of people would stop at the display of photographs and ask questions by the hour, concerning the country and its products, and we all had an opportunity to talk ourselves hoarse every day answering them.

If our people at home could be made to realize the benefit that it is to our country to thoroughly advertise it at an exposition of this kind they would not let the supplies stop before the work is half completed.

A great many people here have an idea that we can raise very little besides oranges and lemons, and they expressed surprise at corn, potatoes and pumpkins and barley superior to their own.

Then there is quite a prevalent idea that we have but little valley land, and nearly all of that is stacked off into town lots, and that there is no farm land worth mentioning.

We were asked scores of times every day such questions as these: What is the price of land? Where is the best land? Have you railroad facilities? Does farming pay? Can a laboring man get work? Do you have earthquakes? Do you have snow? Do you have water? Do you feed your stock during the winter? Do you ever have the yellow fever? etc., etc.

If one out of every 25 who now say they are going to California should go, we will certainly have a large increase of population this coming winter, and the coming winter is already upon us here, for there are heavy frosts at night, and we go bundled up in our overcoats, and the ladies in their furs, more than Californians do in December.

Fall time even in Ohio has its pleasures.

ant features, as some of us were made aware a few days ago, when we took a holiday into the country to gather chestnuts and take a little rest.

Even such things as the cold, sweet cider just from the mill, the warm pumpkin pie from the oven, the long, regular rows of corn shocks in the field, and the forest's adams with the red and the yellow and the crimson leaf, the prim housewife, a table loaded with the good things of her own handiwork, all help to recall the boyhood days of long ago, with all their pleasant memories. Yet with them all "I would not stay always," and with California so far away, and with winter so near, we will all be glad when we have finished what is yet to do and are on our return to the land of the setting sun.

C. P. DORLAND.

Another train-load of Raisins.

[Riverside Tribune.]

The first through train of raisins that ever left Riverside for Southern California pulled out of the yard in this city last evening en route for Kansas City. The train comprised nine cars, loaded with choice London layers, from an enterprising and pushing firm of Griffin & Skelley. Six of the cars were entirely of their curing and packing, and the other three shipped by different growers of the valley, bearing the sign of "G. & S."

This is an evidence of enterprise upon the part of Griffin & Skelley that will give prominence to Riverside and her productions. Who among us three years ago would have imagined the idea of a special through train of raisins from this valley, and who would have contemplated the vast number of these through trains that will leave our gates during the next five years. That they will be many cannot be doubted. The increase in yield and acreage of each year enhances the extent of marketable products, and the future has even a brighter prospect for the industry than what the past has materialized.

With this condition of things prominent before us, who will gainsay the ultimate wealth and importance of this valley?

These trainloads of raisins mean vast sums of money for our ranchers, and their receipt of it bespeaks activity and solidity to every industry and business within our 64 square miles.

As Bad as Los Angeles.

[San Diego Bee.]

First impressions are, as a rule, lasting ones and very hard to overcome. With the advent of the rainy season, the first impression of the stranger upon arrival in the city will be the horrible condition of D street, with its lack of paving and sidewalks, and its lack of judgment all the city by that street. It is the principal cross-town street, and has a very large traffic over it, particularly foot travel. Below Second street there are only a few scattering patches of sidewalk, and for appearance sake nothing more. Good sidewalks should be built from Atlantic street to Second. With the paving of Fifth and Sixth streets, and the further paving of D, our principal streets would present an appearance of thrift and enterprise, and a stranger worth many times the cost of the work.

A CANDID CONFESSION.

For several years I suffered from Dyspepsia and Kidney Complaint, the latter being so severe at times that I could scarcely attend to my work. My appetite was poor and my bowels constipated. I had tried the free use of Dr. J. C. Williams' Pink Pills for Pale People, and had obtained some relief, but my health was not permanently improved. I then tried Dr. J. C. Williams' Pink Pills for Pale People, and after using six bottles I feel that I am cured of my Dyspepsia and Kidney Complaint. I am now able to do my work as usual, and my health is permanently improved. I feel that I am cured of my Dyspepsia and Kidney Complaint. I am now able to do my work as usual, and my health is permanently improved.

John M. Lellan, Redding, Cal.

PUT ME ON THE LIST.

I suffered for years from catarrh, destroyed my appetite and weakened my system. None of the remedies I took afforded me any relief, until I commenced using "The California Remedy," Dr. J. C. Williams' Pink Pills for Pale People. I began taking it last spring and am now entirely free from this disgusting disease, and am again strong and healthy.

7 and 9 North Spring Street.

"KNOWLEDGE IS POWER," and to know where to buy to the best advantage is a powerful lever in the hinge of a pocketbook. The people generally understand, after one or two trials, that, all other things being equal, the proper thing to do on all occasions is to buy where the prices are lowest. We boast of our ability to buy goods cheap. We buy more goods—taking our eight stores into consideration—than the combined dry goods houses in Los Angeles do in the aggregate, and this not only affects prices, but produces styles which cannot be surpassed outside of eastern markets. We import direct one-third of all our Dress Goods, giving the purchaser the advantage in every particular. Novelties in Dress Trimmings are constantly arriving. Braids with Milanese effects are new with the season. The moss quartz is entirely new. Tinsel Braids, woven and interwoven, in a great variety of designs, will be in great demand; and last, but not least, Tinsel Braid interwoven with the old-fashioned Hercules Trimmings is brought out again, this time with novel effect. Nothing more suitable for trimming Tricots, Cashmeres and Serges. For bargains of more than ordinary interest, see appended list of specials.

J. M. HALE & CO.,

WEDNESDAY, OCTOBER 10,

7 & 9 North Spring St.

FRENCH BROADCLOTHS.

15 pieces—about 500 yards—genuine French Broadcloth, full 50 inches in width, at \$1.15 per yard, selling everywhere at \$2.25. Nine shades to select from—dark garnet, marine blue, navy blue, brown, dark green, olive, sapphire, mahogany, cadet, maroon, also in black. For close-fitting suits, for general street wear, for walking jackets, this material cannot be excelled. Six yards makes a complete dress, one and one-half yards is sufficient for a jacket which would cost you already made not less than \$12. We will display this line in north show window.

DRESS GOODS! DRESS GOODS!

28 INCHES

WIDE

All-Wool Tricots

In shades of Brown and Gray, at

35c Per Yard

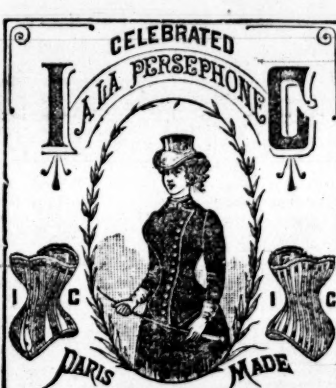

About 500 yards in all.

In connection with this line we have about

20 PIECES

All-Wool Flannels.

In stripes and plaid, which we will place on our counters at same price, 35c. Nothing more desirable for general wear; reduced from 60c.

A BEAUTIFUL

LINE OF

Unfinished Albatross,

Cassimere Suitings

AND

SERGES,

All at a common price,

35c Per Yard.

Almost every combination of colors to select from—stripes, plaid and mixed. None of these goods ever sold for less than 70c, the greater part at \$1 and \$1.25.

GREAT BARGAINS.

A great bargain day in Dress Goods, 40 inches wide.

CAMPAIGN HANDKERCHIEFS.

100 dozen Campaign Handkerchiefs—Log Cabin, Protection, Bandana, Stars and Stripes—in fact anything you want at 5 cents apiece.

LACE CURTAINS.

A stupendous reduction in Lace Curtains to close out 100 pairs fine and medium quality Lace Curtains, in the latest designs, at one-third less than the marked prices. Anything marked at \$1.50 will cost you but \$1. At different prices in like proportion.

FANCY FLANNELS.

1000 yards, 25 inches wide, Fancy Flannels, at 30 cents per yard; late colorings and fancy designs; guaranteed all-wool. A bargain at double the price. Very suitable for fants' cloaks, tea gowns, etc.

DRESS GOODS.

1000 yards, 38 inches wide, Dress Suitings, nearly all-wool, at 25 cents per yard, eight or ten different combinations to select from. Regular selling price 40 and 50 cents.

BLANKETS.

A chance to keep warm. 150 pairs 10-4 White Blankets, with blue and red borders, at \$1.25 per pair. Good value at \$2.

TOWELS.

50 dozen Crepe Towels, 25 by 47 inches, at 20 cents apiece. Regular selling price 25 cents.

PASADENA.

INTERESTING NEWS FROM THE CROWN OF THE VALLEY.

Y.M.C.A. Concert-Trip to Wilson's Peak-Arrested for Fast Driving-Fruit Stealing-General News-Personals.

PASADENA, Oct. 8.—[Correspondence of THE TIMES.] The synod having adjourned, the city has returned to its normal condition. The meeting was well attended and very successful. On all sides none but praises were heard of Pasadena, especially for the great hospitality shown. All have left us very pleased, which adds still more to the city's popularity, and may help to bring us new citizens.

Y.M.C.A.
The new hall of the association in the Morgan building was well filled yesterday. Rev. H. S. Snodgrass of Monterey opened the gospel service. Rev. R. H. Hartley offered prayer. Splendid addresses were given by Revs. A. K. Burnett and W. H. Claggett, evangelists. The latter is from St. Louis. Rev. H. X. Munroe of Stockton also addressed the audience. The song service was very interesting. They also gave a grand concert tonight at the same place, which was well attended. An excellent programme was presented, rendered in most excellent style.

MCCARTHY MORDED.
Detective McCarthy, who has been making himself obnoxious to the young men of the city by setting up jobs on them to have cause for arrest, was mobbed again tonight at Colorado street and Fair Oaks avenue.

Marshal Mundell and officers were soon on the scene, and put a stop to it. This man should be squashed at once. He has no authority, and if not checked, the end will be tar and feathers, so the boys claim. Anything of this kind is disgraceful. Remember all events like this hurt Pasadena.

HERE AND THERE.
A number of Los Angeles and Pasadena residents intend to make up a party to go to Wilson's Peak next Sunday.

Several were arrested yesterday for fast driving but released with a reprimand.

Yesterday the pulpit of the Universalist Church was occupied by Rev. Mr. Rich of Mendocino City.

Both the Cadets and Harrison Club will go to Los Angeles tomorrow night in full uniform, the former as guests of the El Rio Club, the latter as guests of the Union League. It would be hard to find better looking companies of men, and no doubt they will attract much attention.

James Garey, J. H. Marsh, L. B. Young and Sydney Hildeside were fined today for drunkenness.

Mr. Shaw has been retired for an indefinite length of time, without pay. How would it do to resign?

His Honor fined a couple of little girls \$5 each for stealing grapes. Their mother put up the ducks, and the ducks ate the grapes.

Must the peanut stands go? Council may so decide.

The seats for the new opera-house are here. Work will commence at once putting them in place. This will take about two weeks.

F. A. Worden was arrested yesterday for fast driving and abusing his horse.

It is possible that we will have the Chicago Baseball Club here for a game. They would, of course, draw a large crowd.

The question is, who will come out victorious, the Salvation Army or the Marshal?

Prof. Dunster gave one of his enjoyable organ recitals Saturday evening to a large and select audience.

Messrs. Fish, Rowland, Post, Bagot, Arthur and Leader have gone to Antelope Valley on a deer-hunting expedition.

A large number of guests are at the Fair.

It seems the amount Mr. A. G. Throop contributed to the building fund of the Universalist Church was \$8000 instead of \$800.

Mr. Fred Bernum of San Francisco, a very fine looking man, has engaged to take part in the Koller-Seifert concert next Thursday evening.

A map showing the way the houses are to be numbered under the ordinance passed, is being prepared by City Engineer Mayer.

The trial of Walter Wilkins for petty larceny took place tomorrow morning at 9 o'clock.

Rev. Arthur Crosby delivered the sermon at the Presbyterian Church yesterday.

The Board of Trade meets tomorrow.

The Harrison Club was out tonight to compete for that one-hundred-dollar prize drift. They paraded the street and showed up in great style. The Cadets were not out tonight.

PERSONAL NOTES.
Dr. J. R. White will soon visit his Inyo county ranch.

C. M. Burr has gone to San Diego.

E. C. Kellogg of Chicago is in the city.

Mr. Case and wife of Olivewood have returned home after an extended eastern trip.

H. W. Smith has returned to his home, Savannah, N. Y.

Wash Morton has returned from Llano.

EASTERN VALLEY.

A Senseless Fight Over the Bear Valley Dam.

REDLANDS-LEGONIA, Oct. 6.—[Correspondence of THE TIMES.] The sensation here during the last two weeks has been the senseless scuffle created about the Bear Valley dam, located in the mountains some twenty miles northeast of this place, and which confines an immense body of water which is used for irrigation here. It seems that there has been a quiet contest for the control of this reservoir going on for some time. Certain parties wished to force the price of the stock down so that they could obtain a controlling interest at their own price. So stories were put in circulation that the dam was in a dangerous condition, and was apt to give way at any hour and flood the entire valley. Some husbandry sent a wildly alarming letter to the San Diego press, and as a result there was quite a sensation. The writer recently paid a visit to this dam, and certainly nothing in its appearance would lead any one to suppose for a moment that it was other than a most substantial structure. It was finished in 1884, and for three years since has controlled a body of water five miles long and a mile wide at the widest part, with a depth of 50 feet at the dam. There has not been the slightest sign of weakness, none is visible now, and all its intent and purpose the massive stone wall is as solid as the mountains themselves. The very fact that those who are best acquainted with the dam have recently investigated

many thousand dollars in stock therein ought to be sufficient evidence in the eyes of the people as to its stability. Capital is proverbially timid, and men of means are not prone to investing in schemes which promise only "first dividends." It is the intention of the controllers of Bear Valley to raise the dam some, and thus double the capacity of the reservoir.

Next to the matter just referred to, the most interesting topic just now is the proposed incorporation of the major portion of this valley, under the form of a city of the sixth class. It is proposed to include the settlements of Redland, Legonia, Crafton and a portion of Old San Bernardino. At present there is no local government of any sort for the 2000 people living east of the Santa Ana River. Public improvements are all made by subscription, and there is no legal means of rejecting the liquor traffic and other evils. The only difficulty in the way of the adoption of a corporate government is in the boundaries of the district proposed to be included. Incorporation is recognized as a step necessary in the march of progress, and on condition that it will probably meet the fate of those who have opposed progress in the past.

A potent argument for the adoption of a single name here is seen in the shipment of our dried fruit and raisins. Although produced in the same region, they go abroad under half a dozen names, and we lose the credit to which we are entitled. At the present moment Riverside dealers are buying up the raisins produced here and are packing and shipping them as "Riverside fruit." This they have a perfect right to do, commercially speaking, but at the same time the people naturally object to having this locality ignored for the benefit of another.

Some liberal-minded men could do a rich business here next year by starting a cannery and dryer. During the season just closed many tons of fruit went to waste, while hundreds of tons were sold to dryers for half a cent a pound.

Some of the best fruit in the valley is canned here, and the canneries have paid as high as 2 and 2½ cents, but up here they had things all their own way; and, as a consequence, have been enabled to do a very lucrative business—for themselves.

The new granite quarry opened in Mill Creek Cañon, are turning out well. There is a large force of men at work, and many carloads of the stone have been shipped to San Diego, Los Angeles and elsewhere. The stone is of fine quality, of good texture, and can be got out and good cheap.

What is this "nervous trouble" which so many seem now to be afflicted with? You will remember a few years ago that malaria was comparatively unknown—today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in this land. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called "biliousness," and all are caused by troubles which arise from a diseased condition of the liver, which in performing its functions, finding it cannot dispose of the bile through the ordinary channel, is compelled to pass it off through the system, causing nervous troubles, malaria, biliousness, etc. You who are suffering can well understand the danger of this disease. August Flower. Its cures are marvelous.
